Advantages of tensile fabric roofing over conventional media

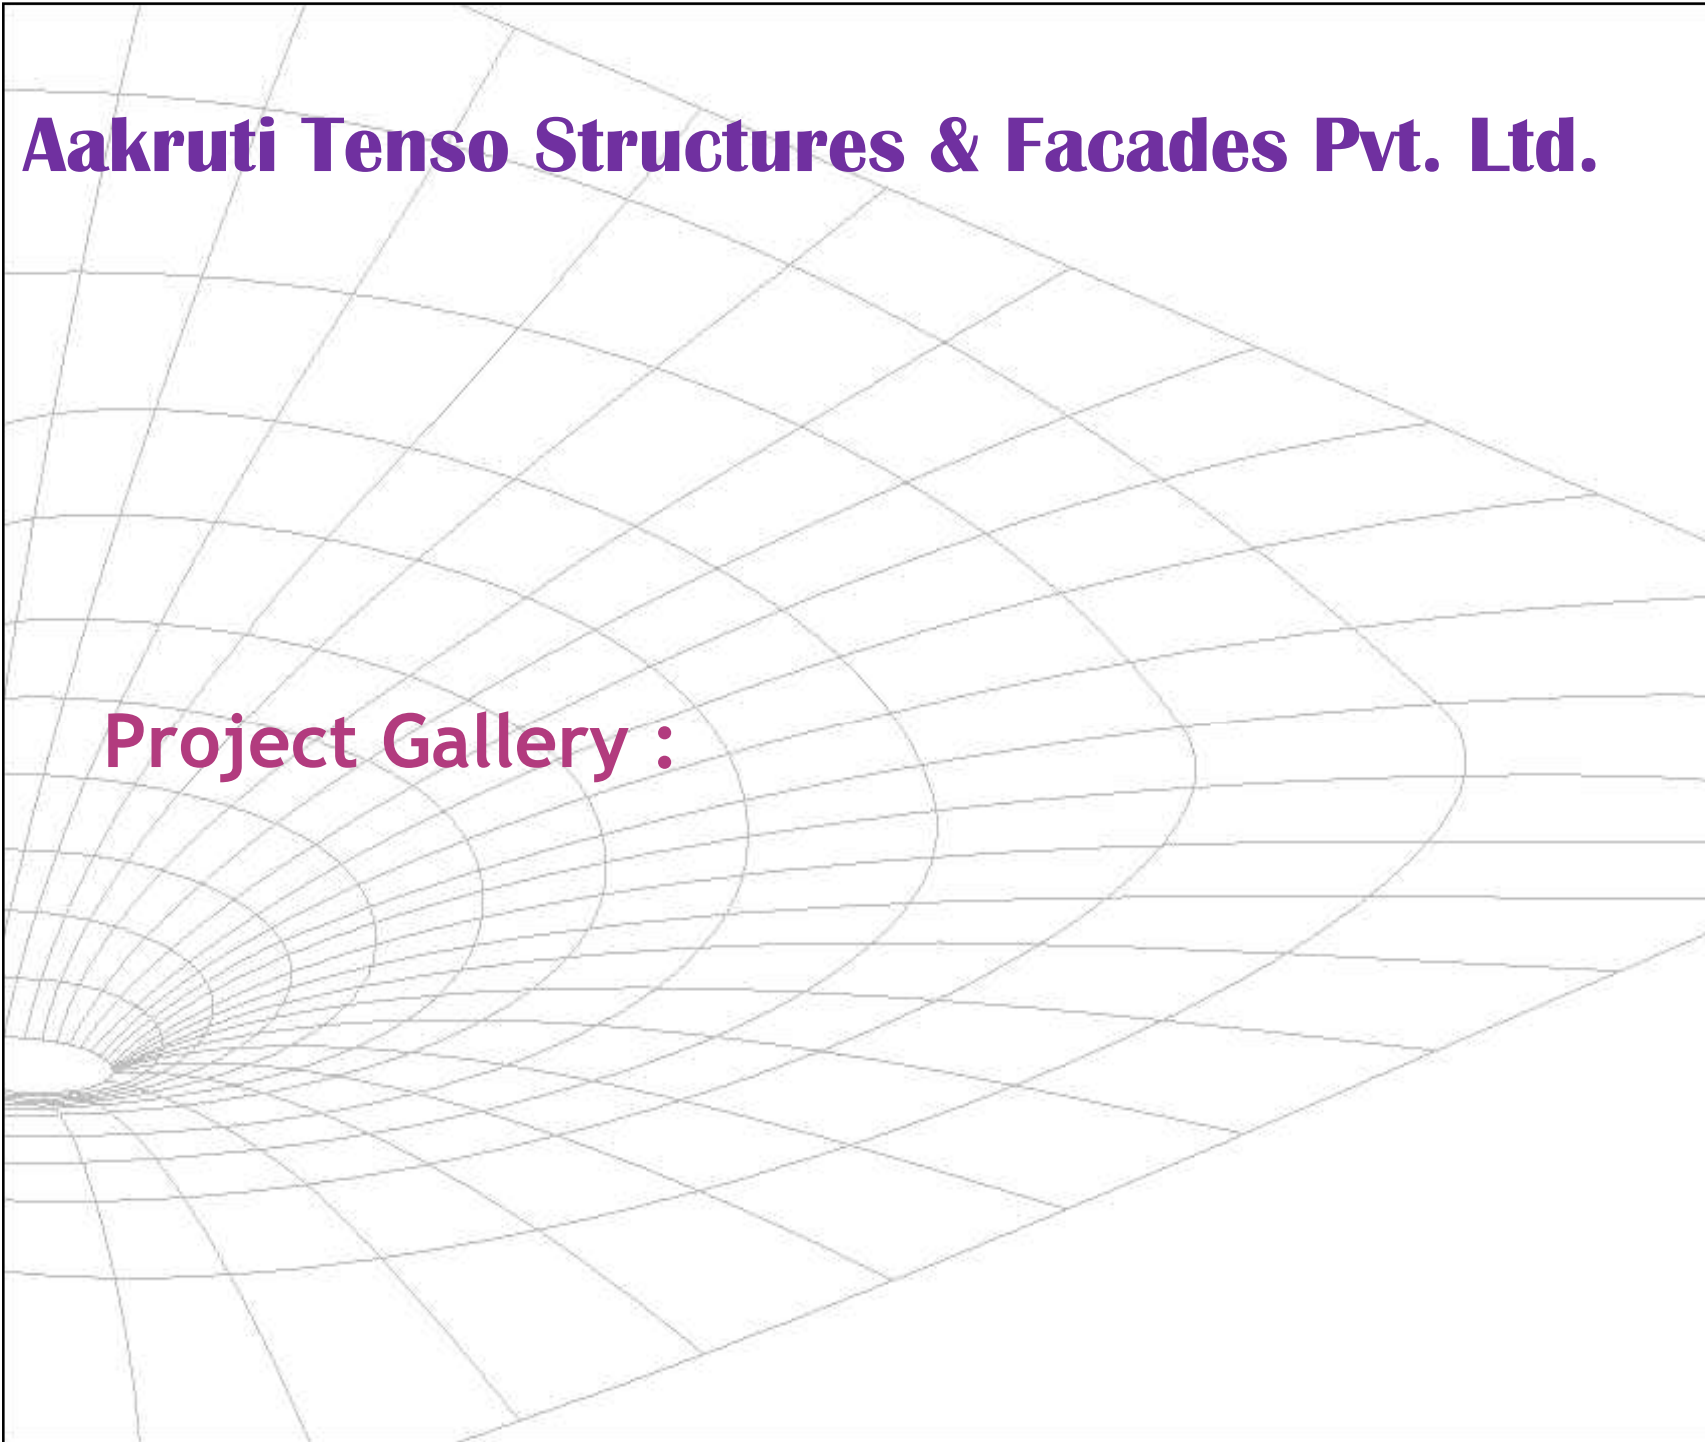

- Large span coverage with free movements at low weight
- Better life span than conventional media
- Great aesthetical ambiance that merges with surroundings well
- Custom design and site specific turnkey solutions
- Faster installation
- Can be installed on new as well as existing structures
- Minimum obstacle on site during installation
- Low maintainance Cost
- Easy to clean
- Green solution for roofing as it allows sunlight to pass through
- Cheaper in long term
- Fire Retardant
- Water proof media which gives protection against snow, rain and U V rays in sunlight
- World class designs along with complete technical data and load analysis
- Relevant additional media consultancy also offered
